

FOR IMMEDIATE RELEASE

Linear Announces New ONVIF-Compliant H.264 IP Camera Line
*Aigis InterPro Line of IP Cameras Integrates Seamlessly with
Video Management Systems*

ASIS 2011 Orlando, FL (September 19, 2011) – [Linear LLC](http://www.linearcorp.com), the leading supplier of electronic products for a host of residential and commercial applications, today introduced the new line of InterPro IP network cameras.

The Aigis InterPro IP Camera line is available in multiple form factors to match any installation requirement need. Models offer features such as on-board storage, day/night capability, two-way audio, and ONVIF compliance for compatibility with popular Video Management Systems (VMS). Added flexibility has been designed into the camera lines by incorporating efficient H.264 compression technology, and dual-stream capability, allowing transmission of two simultaneous video data streams in any mix of three formats: H.264, MPEG-4, or MJPEG.

All InterPro cameras feature Power over Ethernet (PoE) single-cable wiring simplicity, making the addition of new cameras into existing IP infrastructures fast and easy. Further enhancing the line is Aigis' renowned strength in mounting options, and enclosures for any weather condition.

To learn more or to order any of the new Aigis InterPro IP Cameras, please contact Linear at (800) 421-1587, or visit www.linearcorp.com.
